

# GROSS POLLUTANT CONTROL DEVICES

## CLEANING GROSS POLLUTANT CONTROL DEVICES

Stormwater quality and flood prevention is of continuing importance for all of our community.

Gross Pollutant Trap devices are designed to collect pollutants, debris and sediment at the end catchment.

In order for them to function effectively, they must have regular cleaning and maintenance.

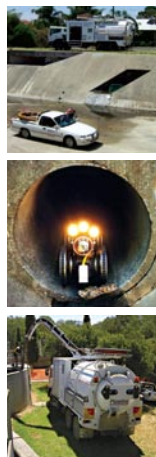

Pipeline Technology Services has vast experience in cleaning all types of makes and models of gross pollutant control devices including:

- Removable basket type
- Grab operation method
- Suction of pollutants

All wastes are removed and transported to the licensed waste disposal recycling site under our EPA license.

We will provide a maintenance program to ensure regular inspection and maintenance cleaning to suit your requirements and budget constraints.

*putting technology to work*

- Trenchless Technology
- Pipe Rehabilitation & Re-lining
- Sewer and Stormwater Cleaning
- Hydrojet & Vacuum Recovery Units
- Confined Space Entry Specialists
- Location of underground services
- CCTV inspections
