

# PUMP STATION CLEANING & REPAIRS

## PUMP STATION CLEANING AND REPAIRS

Pipeline Technology Services has an expert team to carry out all facets of pump station cleaning, repairs and maintenance.

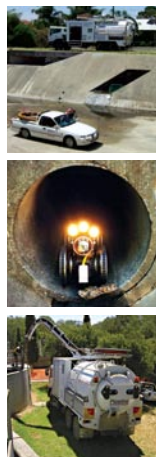

We will provide a maintenance program to ensure regular inspection and maintenance cleaning to suit your requirements

We utilise our high tech JetVac combination Jetting and Vacuum Recovery truck for cleaning and vacuuming of silt and debris; our confined space entry team for access to the pump chambers, and our associated pump manufacturing and service team for pump repairs and servicing.

We are approved contractors for the Water Authorities.

Contact Pipeline Technology Services to arrange for inclusion into our computer diary for ongoing regular inspections of your pump stations to prevent the flooding of basements, car parks, factories and working areas.

*putting technology to work*

- Trenchless Technology
- Pipe Rehabilitation & Re-lining
- Sewer and Stormwater Cleaning
- Hydrojet & Vacuum Recovery Units
- Confined Space Entry Specialists
- Location of underground services
- CCTV inspections
